

EDWARD A. ARCURI

Commissioner of Aviation

I started my career here at Griffiss in 2005 with Rome Research, the caretakers of the former Griffiss AFB. In early 2006, I was retained by Oneida County, under County Executive, Joseph Griffo. My position was to work with county staff to ensure a smooth transition from the County Airport in Oriskany, to the new home of Griffiss International Airport. From 2006-2019 the position I held was Superintendent of Buildings and Grounds, I also overseen the County's TSA Security Department.

In 2019, I became Deputy Commissioner, appointed by Anthony Picente Jr, our current County Executive.

In mid 2020, I became Interim Commissioner until April 2021. I was then appointed Commissioner of Griffiss International Airport, where I oversee County staff and all day to day operations at Griffiss.

It has been an exciting journey to work here for Oneida County. Griffiss International Airport has seen changes along the way, but has become a great asset to the citizens of Oneida County. Griffiss International looks to have a bright future ahead with the addition of the Innovare Center, Sky Dome and the New York Test Site.
